

ALEX KRAWCZYK

ABOUT ALEX KRAWCZYK

Alex Krawczyk is a Canadian singer-songwriter from Toronto whose deeply personal, folk-inflected music has earned growing recognition for its emotional honesty, spiritual depth, and gentle resilience. She emerged onto the folk music scene in 2022 with her debut album, *Le Olam*.

Her newest album, *Wonders Await*, released in 2026 and co-written with frequent collaborator Robbie Roth, is a poignant tribute to the spirit of unity and healing through music. Through her music, Alex strives to create an emotional discourse that beckons her listeners to contemplate different aspects of life. From grief and loss to love and new beginnings, Alex's music takes listeners on an emotional journey that ultimately helps them feel uplifted.

A nurse and community builder, Alex turned to songwriting and recording as a way to process her grief following the traumatic loss of her parents. When she's not working on her music, Alex devotes much of her time to her two charitable foundations, the Krawczyk Family Foundation and the Honey & Barry Sherman Legacy Foundation.

Alex's work has also earned her industry recognition. She was nominated for a Josie Award and as Best New/Emerging Artist at the Canadian Folk Music Awards (CFMAs) — a nod to her rising impact in the folk community. She continues to write and record new music, sharing her journey of hope and healing through song.
